The abstract book of the Russia-China Bilateral Workshop *Marine Biology and Biodiversity Science in the 21<sup>st</sup> Century*, September 23–24, 2025, Vladivostok, Russia contains materials presented during the workshop and dealing with various aspects of marine biodiversity and related issues of marine biology and ecology, environment, ocean health, aquaculture, etc. The book contains 27 abstracts of presentations by Russian and Chinese scientists. The workshop is the 7<sup>th</sup> meeting jointly organized by the NSCMB FEB RAS (Russia) and the Institute of Oceanology CAS (China) (six previous meetings were held in Qingdao in 2007, 2010, 2017, 2023 and in Vladivostok in 2012, 2019).

Сборник тезисов докладов Российско-Китайского билатерального совещания «Морская биология и наука о биоразнообразии в 21 веке», 23–24 сентября 2025 г., Владивосток, содержат тезисы докладов, доложенных во время проведения совещания и посвященные различным аспектам изучения морского биоразнообразия, преимущественно на примере северо-западной части Тихого океана, и связанным с этим вопросам морской биологии и экологии, окружающей среды, здоровья океана, аквакультуры и т.п. Сборник тезисов включает 27 тезисов докладов российских и китайских участников. Совещание является 7-м мероприятием, организованным совместно НИЦМБ ДВО РАН (Россия) и Институтом океанологии КАН (Китай) (четыре предшествующих совещания прошли в г. Циндао в 2007, 2010, 2017, 2023 гг. и в г. Владивостоке в 2012, 2019 г.).
